### Independent Accountant's Report

Shareholders and the Board of Directors of Rosneft Oil Company

We have reviewed the accompanying consolidated balance sheet of Rosneft Oil Company, an open joint stock company ("the Company"), as of March 31, 2010, and the related consolidated statements of income and comprehensive income and cash flows for the three-month periods ended March 31, 2010 and 2009. This interim condensed consolidated financial information is the responsibility of the Company's management.

We conducted our review in accordance with the standards established by the American Institute of Certified Public Accountants. A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the United States of America, the objective of which is the expression of an opinion regarding the financial information taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying interim condensed consolidated financial information for it to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with auditing standards generally accepted in the United States of America, the consolidated balance sheet of the Company as of December 31, 2009, and the related consolidated statements of income and comprehensive income, changes in shareholders' equity, and cash flows for the year then ended, and in our report dated February 1, 2010 we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying consolidated balance sheet as of December 31, 2009, is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

### Notes to Interim Condensed Consolidated Financial Statements (Unaudited)

### Three months ended March 31, 2010 and 2009

(all amounts in tables are in millions of US dollars, except as noted otherwise)

#### 1. Nature of Operations

Rosneft Oil Company Rosneft ("Rosneft") and its subsidiaries, (collectively the "Company" or the "Group"), are principally engaged in exploration, development, production and sale of crude oil and gas and refining, transportation and sale of petroleum products in the Russian Federation and in certain international markets.

#### 2. Significant Accounting Policies

#### Form and Content of the Interim Condensed Consolidated Financial Statements

The Company maintains its books and records in accordance with accounting and taxation principles and practices mandated by Russian legislation. The accompanying interim condensed consolidated financial statements were derived from the Company's Russian statutory books and records with adjustments made to present them in accordance with accounting principles generally accepted in the United States of America ("US GAAP").

In June 2009, the Financial Accounting Standards Board ("FASB") issued the Accounting Standards Update ("ASU") 2009-01 ("ASU 2009-01"). ASU 2009-01 also issued as FASB Statement of Financial Accounting Standards ("SFAS") 168, *The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles*, is effective for financial statements issued after September 15, 2009. ASU 2009-01 requires that the FASB's Accounting Standards Codification ("ASC") become the single source of authoritative US GAAP principles recognized by the FASB. The Company adopted ASU 2009-01 effective July 1, 2009 and changed references to US GAAP in its interim condensed consolidated financial statements issued for the three months ended March 31, 2010. The adoption of ASU 2009-01 did not impact the Company's consolidated financial position or results of operations.

The interim condensed consolidated financial statements included herein are unaudited and have been prepared in accordance with US GAAP for interim financial reporting of public companies (primarily FASB ASC 270, *Interim Reporting*) and do not include all disclosures required by US GAAP. The Company omitted disclosures which would substantially duplicate the information contained in its 2009 audited consolidated financial statements, such as accounting policies and details of accounts which have not changed significantly in amount or composition. Additionally, the Company has provided disclosures where significant events have occurred subsequent to the issuance of its 2009 audited consolidated financial statements. Management believes that the disclosures are adequate to make the information presented not misleading if these interim condensed consolidated financial statements are read in conjunction with the Company's 2009 audited consolidated financial statements and the notes related thereto. In the opinion of management, the financial statements reflect all adjustments of a normal and recurring nature necessary to present fairly the Company's consolidated financial position, results of operations and cash flows for the interim periods.

The results of operations for three months ended March 31, 2010 may not be indicative of the results of operations for the full year ended December 31, 2010. Subsequent events have been evaluated through May 17, 2010, the date these interim condensed consolidated financial statements were issued.

# Notes to Interim Condensed Consolidated Financial Statements (Unaudited) (continued)

#### 2. Significant Accounting Policies (continued)

#### Form and Content of the Interim Condensed Consolidated Financial Statements

The accompanying interim condensed consolidated financial statements differ from the financial statements issued for statutory purposes in Russia in that they reflect certain adjustments, not recorded in the Company's statutory books, which are appropriate to present the financial position, results of operations and cash flows in accordance with US GAAP. The principal adjustments relate to: (1) recognition of certain expenses; (2) valuation and depreciation of property, plant and equipment; (3) foreign currency translation; (4) deferred income taxes; (5) valuation allowances for unrecoverable assets; (6) accounting for the time value of money; (7) accounting for investments in oil and gas property and conveyances; (8) consolidation principles; (9) recognition and disclosure of guarantees, contingencies, commitments and certain assets and liabilities; (10) accounting for asset retirement obligations; (11) business combinations and goodwill; (12) accounting for derivative instruments.

#### **Management Estimates**

The preparation of the financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities in the balance sheet as well as the amounts of revenues and expenses recognized during the reporting periods. Certain significant estimates and assumptions for the Company include: estimation of economically recoverable oil and gas reserves; rights to, recoverability and useful lives of long-term assets and investments; impairment of goodwill; allowances for doubtful accounts receivable; asset retirement obligations; legal and tax contingencies; environmental remediation obligations; recognition and disclosure of guarantees and other commitments; fair value measurements; ability to renew operating leases and to enter into new lease agreements, and classification of certain debt amounts. Management believes it has a reasonable and appropriate basis for its judgment pertaining to its estimates and assumptions. However, actual results could differ from those estimates.

### Foreign Currency Translation

The management of the Company has determined that the US dollar ("US\$") is the functional and reporting currency for the purpose of financial reporting under US GAAP. Monetary assets and liabilities have been translated into US\$ using the official exchange rate of the Central Bank of the Russian Federation ("CBR") as of the balance sheet date. Non-monetary assets and liabilities have been translated at historical rates. Revenues, expenses and cash flows have, where practicable, been translated into US\$ at exchange rates that are close to the actual rate of exchange prevailing on transaction dates.

Gains and losses resulting from the re-measurement into US\$ are included in "Foreign exchange gain/(loss)" in the consolidated statements of income and comprehensive income.

As of March 31, 2010 and December 31, 2009, the CBR official rates of exchange were 29.36 rubles ('RUB') and 30.24 RUB per US\$, respectively. Average rates of exchange in the first three months of 2010 and 2009 were 29.89 RUB and 33.93 RUB per US\$, respectively. As of May 17, 2010, the official rate of exchange was 30.06 RUB per US\$.

The translation of local currency denominated assets and liabilities into US\$ for the purposes of these financial statements does not indicate that the Company could realize or settle, in US\$, the reported values of these assets and liabilities. Likewise, it does not indicate that the Company could return or distribute the reported US\$ value of equity to its shareholders.

# Notes to Interim Condensed Consolidated Financial Statements (Unaudited) (continued)

#### 2. Significant Accounting Policies (continued)

#### **Principles of Consolidation**

The interim condensed consolidated financial statements include the accounts of majority-owned, controlled subsidiaries and variable interest entities where the Company is a primary beneficiary. All significant intercompany transactions and balances have been eliminated. The equity method is used to account for investments in affiliates in which the Company has the ability to exert significant influence over the affiliates' operating and financial policies. The investments in entities where the Company holds the majority of shares, but the minority shareholders have significant participating rights, are also accounted for using the equity method. The Company's share in net profit or loss of equity investees also includes any other-than-temporary declines in fair value recognized during the period. Investments in other companies are accounted for at cost and adjusted for impairment, if any.

#### **Business Combinations**

The Company accounts for its business combinations according to FASB ASC 805, *Business Combinations*, and FASB ASC 810, *Consolidation*. The Company applies the acquisition method of accounting and recognizes the assets acquired, the liabilities assumed and any noncontrolling interest in the acquiree at the acquisition date, measured at their fair values as of that date. Determining the fair value of assets acquired and liabilities assumed requires management's judgment and often involves the use of significant estimates and assumptions, including assumptions with respect to future cash inflows and outflows, discount rates, licence and other asset lives and market multiples, among other items.

#### **Goodwill and Other Intangible Assets**

Goodwill represents the excess of the consideration transferred plus the fair value of any noncontrolling interest in the acquiree at the acquisition date over the fair values of the identifiable net asset acquired. The excess of the fair values of the identifiable net asset acquired over the consideration transferred plus the fair value of any noncontrolling interest in the acquiree should be recognized as a gain in consolidated statements of income and comprehensive income on the acquisition date.

For investees accounted for under the equity method, the excess of the cost to acquire a share in those entities over the fair value of the acquired share of net assets as of the acquisition date is treated as embedded goodwill.

In accordance with requirements of FASB ASC 350, *Intangibles – Goodwill and Other*, goodwill and intangible assets with indefinite useful lives are not amortized. Instead, they are tested at least annually for impairment. The impairment loss is recognized when the carrying value of goodwill exceeds its fair value. The impairment test is comprised of two stages. The first step compares the fair value of the reporting unit with its carrying value, including goodwill. If the fair value of the reporting unit exceeds its carrying value, the goodwill of the reporting unit is considered not impaired. Otherwise, the second step of the goodwill impairment test shall be performed to measure the amount of impairment loss resulting from the excess of the reporting unit's carrying value over its fair value. The loss recognized cannot exceed the carrying amount of goodwill. Subsequent reversal of a previously recognized goodwill impairment loss is prohibited.

Intangible assets that have a finite useful life are amortized using the straight-line method over the shorter of their useful life or the term established by legislation.

# Notes to Interim Condensed Consolidated Financial Statements (Unaudited) (continued)

#### 2. Significant Accounting Policies (continued)

#### Fair Value of Financial Instruments

FASB ASC 825, *Financial Instruments*, defines the fair value of a financial instrument as the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

Financial assets and financial liabilities recognized in the accompanying consolidated balance sheets include cash and cash equivalents, short-term and long-term investments, accounts receivable and payable, short-term and long-term debt and other current and non-current assets and liabilities.

The Company, using available market information, management's estimates and appropriate valuation methodologies, has determined the approximate fair values of financial instruments.

#### **Income Taxes**

The Company follows the provisions of FASB ASC 740-270, *Income Taxes (Interim reporting)*, to arrive at the effective tax rate. The effective tax rate is the best estimate of the expected annual tax rate to be applied to the taxable income for the current reporting period. The rate is based on the currently enacted tax rate (20%) and includes estimates of the annual tax effect of permanent differences and the realization of certain deferred tax assets. The expected effective tax rate may vary during the year.

#### **Derivative Instruments**

All derivative instruments are recorded on the consolidated balance sheets at fair value in either other current assets, other non-current assets, other current liabilities or other non-current liabilities. Recognition and classification of a gain or loss that results from recognition of a derivative instrument at fair value depends on the purpose for issuing or holding the derivative instrument. Gains and losses from derivatives that are not accounted for as hedges under FASB ASC 815, *Derivatives and Hedging*, are recognized immediately in the consolidated statements of income and comprehensive income.

#### **Comprehensive Income**

The Company applies FASB ASC 220, *Comprehensive Income*, which establishes standards for the calculation and reporting of the Company's comprehensive income (net income plus all other changes in net assets from non-owner sources) and its components in consolidated financial statements.

For the three months ended March 31, 2010 and 2009, the Company recorded other accumulated comprehensive income (net of tax) in the amount of US\$ 7 million and loss (net of tax) in the amount of US\$ 1 million, respectively, which represent an unrealized financial result from the revaluation of available-for-sale investments.

#### **Accounting for Buy/Sell Contracts**

Paragraphs 845-10-15-5 through 15-9 of FASB ASC 845, *Nonmonetary Transactions*, require that two or more legally separate exchange transactions with the same counterparty, including buy/sell transactions, should be combined and considered as a single arrangement, when the transactions are entered into "in contemplation" of one another.

# Notes to Interim Condensed Consolidated Financial Statements (Unaudited) (continued)

#### 2. Significant Accounting Policies (continued)

#### **Repurchase and Resale Agreements**

Securities sold under agreements to repurchase ("REPO") and securities purchased under agreements to resell ("reverse REPO") generally do not constitute a sale for accounting purposes of the underlying securities, and so are treated as collateralized financing transactions. Interest paid or received on all REPO and reverse REPO transactions is recorded in "Interest expense" or "Interest income" at the contractually specified rate using the effective interest method.

#### **Changes in Accounting Policies**

In August 2009, the FASB issued ASU 2009-05, Fair Value Measurements and Disclosures (Topic 820): Measuring Liabilities at Fair Value ("ASU 2009-05") that amends Subtopic 820-10, Fair value measurements and disclosures, Overall of Topic 820, of the FASB Codification. ASU 2009-05 provides clarification that in circumstances in which a quoted price in active market is not available, a reporting entity is required to use one or more of the following valuation techniques: valuation based on quoted price of identical liability when traded as an asset; quoted prices of similar liabilities or similar liabilities when traded as an assets, or any other technique consistent with the principles of Topic 820, such as present value technique. ASU 2009-05 also clarifies that a reporting entity is not required to include a separate input to existence of restriction that prevents the transfer of the liability. ASU 2009-05 is effective for the first reporting period (including interim periods) beginning after issuance. Early application is permitted if financial statements for prior period have not been issued. The Company adopted ASU 2009-05 from January 1, 2010. Adoption of ASU 2009-05 did not have a material impact on the Company's consolidated financial position and results of operations.

In January 2010, the FASB issued ASU 2010-6, Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements ("ASU 2010-6") that amends Topic 820, Fair Value Measurements and Disclosures, of the FASB Codification. ASU 2010-6 requires separate disclosure of significant transfers between Level 1 and Level 2 fair value measurement inputs and a description of the reasons for the transfers. Entity is also required to present separately information about purchases, issuance, and settlements in the reconciliation for fair value measurements using Level 3 inputs. ASU 2010-6 amends existing disclosure requirements in regards of level of disaggregation and inputs and valuation techniques. ASU 2010-6 is effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures about activity in Level 3 fair value measurements that are effective for interim and annual periods beginning after December 15, 2010. The Company adopted ASU 2010-06 from January 1, 2010, except for the disclosures about activity in Level 3 fair value measurements that will be adopted from January 1, 2011. Adoption of ASU 2010-06 did not have a material impact on the Company's consolidated financial position and results of operations.

#### **Recent Accounting Standards**

In March 2010, the FASB issued ASU 2010-11, *Derivatives and Hedging (Topic 815): Scope Exception Related to Embedded Credit Derivatives* ("ASU 2010-11") that amends Topic 815, *Derivatives and Hedging*, of the FASB Codification. ASU 2010-11 clarifies that scope exception for embedded credit derivative features relates to the transfer of credit risk in the form of subordination of one financial instrument to another. ASU 2010-11 is effective at the beginning of the first fiscal quarter beginning after June 15, 2010. Early adoption is permitted at the beginning of each first fiscal quarter beginning after issuance of ASU 2010-11. The Company will adopt ASU 2010-11 from July 1, 2010. The Company does not expect ASU 2010-11 to have a material impact on the Company's consolidated financial position and results of operations.

# Notes to Interim Condensed Consolidated Financial Statements (Unaudited) (continued)

#### 3. Cash and Cash Equivalents

Cash and cash equivalents comprise the following:

	March 31, 2010 (unaudited)	December 31, 2009
Cash on hand and at bank accounts in RUB	321	624
Cash on hand and at bank accounts in foreign currencies	366	748
Deposits	608	612
Other	87	13
Total cash and cash equivalents	1,382	1,997

Cash accounts denominated in foreign currencies are primarily in US\$.

Deposits are interest bearing and denominated primarily in RUB.

As part of its cash management and credit risk function, the Company regularly evaluates the creditworthiness of financial and banking institutions where it deposits cash. Banking relationships are primarily with Russian subsidiaries of international banking institutions and certain large Russian banks.

#### 4. Short-Term Investments

Short-term investments comprise the following:

	March 31, 2010 (unaudited)	December 31, 2009
Short-term loans granted	1	1
Loans to related parties	11	12
Reverse repurchase agreements	_	22
Structured deposit (Note 20)	516	507
State and corporate bonds held-to-maturity	16	_
Promissory notes held-to-maturity	85	81
Trading securities		
Promissory notes	_	38
State and corporate bonds	32	449
Other	1	4
Available-for-sale securities	425	210
Bank deposits	931	1,184
Total short-term investments	2,018	2,508

RUB-denominated short-term promissory notes which are held-to-maturity bear interest of 15% and mature in January 2011. The fair value of held-to-maturity securities approximates their carrying value recognized in the financial statements.

As of March 31, 2010, trading securities include state and municipal bonds with nominal interest rates ranging from 6.9% to 18.0% and maturities ranging from June 2010 to February 2036 and corporate bonds issued by large Russian corporations with maturities ranging from September 2010 to July 2016 and interest rates ranging from 9.4% to 19.0%.

# Notes to Interim Condensed Consolidated Financial Statements (Unaudited) (continued)

#### 4. Short-Term Investments (continued)

Available-for-sale securities include state and corporate bonds. State bonds represent federal loan bonds issued by the Ministry of Finance of the Russian Federation with maturities ranging from July 2010 to August 2025 and nominal interest rates ranging from 6.1% to 10.0% and bonds issued by CBR with weighted average effective interest rate of 5.61% and with maturities ranging from June to September 2010. The corporate bonds represent bonds issued by large Russian corporations with maturities ranging from July 2010 to July 2016 with an interest rates ranging from 7.55% to 18.00%. Amortized cost bases of available-for-sale securities approximate their fair values.

Structured deposit and bank deposits denominated in US\$ have interest rates ranging from 6.50% to 7.75%. The bank deposits denominated in RUB have interest rates ranging from 9.30% to 10.60%.

#### 5. Accounts Receivable, net

Accounts receivable comprise the following:

	March 31, 2010 (unaudited)	December 31, 2009
Trade receivables	5,244	2,958
Value-added tax and excise receivable (see Note 18)	2,346	2,269
Other taxes	137	211
Banking loans to customers	667	753
Acquired receivables	30	30
Other	343	328
Less: allowance for doubtful accounts	(96)	(91)
Total accounts receivable, net	8,671	6,458

The Company's trade accounts receivable are denominated primarily in US\$. Credit risk is managed through the use of letters of credit. Credit risk in domestic sales of petroleum products is managed through the use of bank guarantees for receivables repayment.

Increase in trade receivables is due to the delay in collection of the export revenue in connection with Yukos Capital S.a.r.l. litigation (see Note 18). Following consent judgment on April 6, 2010, all of the overdue trade receivables in the amount of US\$ 1.3 billion have been collected.

#### 6. Inventories

Inventories comprise the following:

	March 31, 2010 (unaudited)	December 31, 2009
Materials and supplies	507	492
Crude oil and gas	580	502
Petroleum products	1,054	892
Total inventories	2,141	1,886

Materials and supplies mostly include spare parts. Petroleum products include those designated for sale as well as for own use.

# Notes to Interim Condensed Consolidated Financial Statements (Unaudited) (continued)

### 7. Prepayments and Other Current Assets

Prepayments and other current assets comprise the following:

	March 31, 2010 (unaudited)	December 31, 2009
Prepayments to suppliers	600	705
Prepaid customs duties	1,317	1,334
Insurance prepayments	15	12
Derivatives (Note 20)	40	3
Other	73	72
Total prepayments and other current assets	2,045	2,126

Prepaid customs duties primarily represent export duties related to the export of crude oil and petroleum products (see Note 14).

### 8. Long-Term Investments

Long-term investments comprise the following:

	March 31, 2010 (unaudited)	December 31, 2009
<b>Equity method investments</b>	,	_
OJSC Tomskneft VNK	1,541	1,488
Polar Lights Company LLC	82	84
JV Rosneft-Shell Caspian Ventures Ltd.	16	16
OJSC Verkhnechonskneftegaz	238	234
CJSC Vlakra	110	110
OJSC Kubanenergo	137	167
Other	178	171
Total equity method investments	2,302	2,270
Available-for-sale securities		
OJSC TGK-11	26	20
Long-term promissory notes	_	4
Other securities in Company's banks	15	14
Bank deposits – US\$ denominated	849	833
Held-to-maturity securities		
Russian government bonds	54	36
Long-term loans to equity investees	573	550
Cost method investments	22	17
Total long-term investments	3,841	3,744

US\$ denominated deposits were placed in June 2009 in a state controlled bank for two years, at an interest rate of 8%.

Long-term loans to equity investees have contractual maturities from 3 to 8 years.

# Notes to Interim Condensed Consolidated Financial Statements (Unaudited) (continued)

## 8. Long-Term Investments (continued)

Equity share in profits/(loss) of material investments recorded using the equity method:

			rofits/(loss) investees
	Participation interest (percentage) as of March 31, 2010	Three months ended March 31, 2010 (unaudited)	Three months ended March 31, 2009 (unaudited)

### 10. Other Non-Current Assets

Other non-current assets comprise the following:

	March 31, 2010 (unaudited)	December 31, 2009
Advance payment in favour of Factorias Vulcano S.A	_	90
Advances paid for capital construction	554	553
Debt issue costs	68	75
Prepaid insurance	8	11
Long-term receivables (Note 18)	23	22
Other	101	95
Total other non-current assets	754	846

# Notes to Interim Condensed Consolidated Financial Statements (Unaudited) (continued)

#### 11. Accounts Payable and Accrued Liabilities

Accounts payable and accrued liabilities comprise the following:

	March 31, 2010 (unaudited)	December 31, 2009
Trade accounts payable	1,879	1,570
Salary and other benefits payable	542	436
Advances received	343	455
Dividends payable	3	3
Banking customer accounts	836	822
Accrued expenses	243	260
Other	150	151
Total accounts payable and accrued liabilities	3,996	3,697

The Company's accounts payable are denominated primarily in RUB.

#### 12. Short-Term Loans and Long-Term Debt

Short-term loans and borrowings comprise the following:

	March 31, 2010 (unaudited)	December 31, 2009
Bank loans – RUB denominated	_	3
Customer deposits – foreign currencies	143	154
Customer deposits – RUB denominated	293	277
Promissory notes payable	90	81
Promissory notes payable – Yukos related	1,365	1,424
Borrowings – RUB denominated	386	365
Borrowings – RUB denominated – Yukos related	703	672
	2,980	2,976
Current portion of long-term debt	4,458	4,862
Total short-term loans and borrowings and current portion		
of long-term debt	7,438	7,838

Customer deposits represent fixed-term deposits placed by customers with the Company's subsidiary bank, denominated in RUB and foreign currencies. Customer deposits denominated in RUB bear an interest rate ranging from 0.01% to 15.00%. Customer deposits denominated in foreign currencies bear an interest rate ranging from 0.01% to 15.00%.

As of March 31, 2010, weighted average interest rate on promissory notes was 10.13%. The promissory notes are recorded at amortized cost.

Promissory notes payable – Yukos related represent financing originally received from the entities that were related to Yukos Oil Company on the debt issue date. The promissory notes are primarily payable on demand and bear interest rates ranging from 0% to 18%. The promissory notes are recorded at amortized cost.

As of March 31, 2010, promissory notes payable – Yukos related, which mature within 12 months, were reclassified to short-term borrowings.

RUB denominated borrowings are interest-free and were received from equity investees.

# Notes to Interim Condensed Consolidated Financial Statements (Unaudited) (continued)

#### 12. Short-Term Loans and Long-Term Debt (continued)

RUB denominated borrowings – Yukos related primarily include borrowings provided by Yukos Capital S.a.r.l., which bore interest of 9% and matured at the end of 2007 (see Note 18).

Long-term debt comprises the following:

March 31, 2010 (unaudited)	December 31, 2009
17,828	18,767
1,100	1,415
2	3
7	22
55	55
239	208
1	60
_	1
19,232	20,531
(4,458)	(4,862)
14,774	15,669
	(unaudited) 17,828  1,100 2 7 55 239 1

The interest rates on the Company's long-term bank loans denominated in foreign currencies range from LIBOR plus 0.5% to LIBOR plus 3.25%. These bank loans are primarily secured by contracts for the export of crude oil.

As of March 31, 2010, the bank loans raised for funding the acquisition of OJSC Yuganskneftegaz represent a long-term loan obtained through a government-owned bank at a rate of LIBOR plus 0.7%. repayable in equal monthly installments. It is scheduled to be fully repaid in 2011. This loan is secured by the Company's receivables under a long-term export contract for the supply of crude oil (see Note 18).

Customer deposits represent fixed-term deposits placed by customers with the Company's subsidiary bank, denominated in RUB and foreign currencies. The RUB-denominated deposits bear interest rates ranging from 0.10% to 15.0%. Deposits denominated in foreign currencies bear interest rates of 0.01% to 14.5%.

As of March 31, 2010, weighted average interest rate on promissory notes payable was 11.04%. The promissory notes are recorded at amortized cost.

During the first quarter of 2010, the Company wrote-off unclaimed promissory notes where statute of limitations expired and recognized gain in the amount of US\$ 119 million in the consolidated statement of income and comprehensive income within other expenses, net. As of March 31, 2010, promissory notes which mature within 12 months were reclassified to short-term borrowings.

# Notes to Interim Condensed Consolidated Financial Statements (Unaudited) (continued)

#### 12. Short-Term Loans and Long-Term Debt (continued)

Generally, long-term loans are secured by oil export contracts. Usually, under the terms of such contracts, the lender is provided with an express right of claim for contractual revenue which must be remitted directly to transit currency (US\$ denominated) accounts with those banks, should the Company fail to make timely debt repayments.

The Company is obliged to comply with a number of restrictive financial and other covenants contained within its loan agreements. Restrictive covenants include maintaining certain financial ratios.

As a result of the net assets acquired and debt incurred as part of the Company's acquisition of OJSC Yuganskneftegaz in December 2004, the Company was not in compliance with various financial and other covenants of existing loan agreements as of December 31, 2004.

In July 2005, the creditors waived violations related to restrictive financial ratios and agreed to amend the financial ratio and other covenants in line with the Company's new structure and new scope of activities. Effective January 1, 2007, the creditors granted amendments to the loan agreements which remove these provisions and have included new provisions whereby the Company must:

- redeem, secure, discharge in full or restructure (and comply with any restructuring plans once it is agreed upon) all OJSC Yuganskneftegaz's tax liabilities by January 3, 2008;
- pay any arbitration award relating to Moravel Litigation (see Note 18) or the Yukos Capital S.a.r.l. Litigation if any such arbitration award is granted by a court of the Russian Federation, within the time frame provided for such payment under Russian Law.

These conditions also apply to certain new borrowings obtained throughout 2008 and 2009. Additionally, in November and December 2007, the creditors waived certain possible violations and/or events of default under the loan agreements with respect to the loans payable to Yukos Capital S.a.r.l. by OJSC Tomskneft VNK and OJSC Samaraneftegaz, and to the condition related to OJSC Yuganskneftegaz's tax liabilities described above, effective through January 3, 2009, inclusively (see Note 18). In 2008, the Company fully restructured OJSC Yuganskneftegaz's tax liabilities (see Note 16). In November 2009, waivers with respect to the loans payable to Yukos Capital S.a.r.l. by OJSC Samaraneftegaz were granted up to the expiry dates of the respective long-term debt.

As of March 31, 2010, the Company is in compliance with all restrictive financial and other covenants contained within its loan agreements.

The scheduled aggregate maturity of long-term debt outstanding as of March 31, 2010 is as follows:

	(Unaudited)
Until December 31, 2010	3,539
2011	2,882
2012	2,017
2013	633
2014	410
2015 and after	9,751
Total long-term debt	19,232

# Notes to Interim Condensed Consolidated Financial Statements (Unaudited) (continued)

#### 13. Income and Other Tax Liabilities

Income and other tax liabilities comprise the following:

	March 31, 2010 (unaudited)	December 31, 2009
Mineral extraction tax	957	901
Value-added tax	317	302
Excise tax	131	159
Personal income tax	21	19
Property tax	62	57
Income tax	394	137
Other	84	52
Total income and other tax liabilities	1,966	1,627

Tax liabilities above include the respective current portion of non-current restructured tax liabilities (see Note 16).

### 14. Export Customs Duty

Export customs duty comprises the following:

	Three months ended March 31, 2010 (unaudited)	Three months ended March 31, 2009 (unaudited)
Oil and gas sales Export customs duty	3,015	1,388
Petroleum products and petrochemicals sales Export customs duty	969	454
Total export customs duty	3,984	1,842

#### 15. Income and Other Taxes

Income tax expenses comprise the following:

	Three months ended March 31, 2010 (unaudited)	Three months ended March 31, 2009 (unaudited)
Current income tax expense	882	198
Deferred income tax benefit	(229)	(71)
Total income tax expense	653	127

# Notes to Interim Condensed Consolidated Financial Statements (Unaudited) (continued)

#### 15. Income and Other Taxes (continued)

As of March 31, 2010 the Company analyzed its tax positions for uncertainties affecting recognition and measurement thereof. Following the analysis, the Company believes that it is more likely than not that the majority of all deductible tax positions stated in the income tax return would be sustained upon the examination by the tax authorities. This is supported by the results of the examinations of the income tax returns which have been conducted to date.

In addition to income tax, the Company incurred other taxes as follows:

	Three months ended March 31, 2010 (unaudited)	Three months ended March 31, 2009 (unaudited)
Mineral extraction tax	2,128	986
Excise tax	251	185
Property tax	66	48
Other	137	128
Total taxes other than income tax	2,582	1,347

#### 16. Other Non-Current Liabilities

Other non-current liabilities comprise the following:

	March 31, 2010 (unaudited)	December 31, 2009
Restructured tax liabilities	1,272	1,312
Long-term lease obligations	109	112
Deferred income	44	53
Liabilities to municipalities under amicable agreements	71	77
Liabilities for rights to use trademarks "Sochi 2014"	44	52
Other		8
Total other non-current liabilities	1,540	1,614

In February and March 2008, the Company received signed resolutions of the Government of the Russian Federation and relevant regional and local authorities regarding the restructuring of the respective tax liabilities. Under the tax restructuring plan, the outstanding tax liabilities shall be repaid quarterly within five years starting from March 2008. The Company's payments excluding interest amounted to RUB 1,612 million and RUB 1,342 million (US\$ 54.5 million and US\$ 40.3 million at the CBR official exchange rate as of the payment dates) for the three months ended March 31, 2010 and 2009, respectively.

The Company intends to undertake all possible actions to comply with the tax restructuring plan in full.

# Notes to Interim Condensed Consolidated Financial Statements (Unaudited) (continued)

#### 17. Related Party Transactions

In the normal course of business the Company enters into transactions with other enterprises which are directly or indirectly controlled by the Russian Government. Such enterprises are OJSC Gazprom, OJSC Russian Railways, OJSC Sberbank, Vnesheconombank, OJSC Bank VTB, OJSC Gazprombank, OJSC AK Transneft, former business units of RAO UES, and federal agencies, including tax authorities.

Total amounts of transactions and balances with companies controlled by the Russian Government for each of the reporting periods ending March 31, as well as related party balances as of March 31, 2010 and December 31, 2009 are provided in the tables below:

	Three months ended March 31, 2010 (unaudited)	Three months ended March 31, 2009 (unaudited)
Revenues and Income		
Oil and gas sales	53	34
Petroleum products and petrochemicals sales	106	71
Support services and other revenues	14	22
Interest income	45	8

# Notes to Interim Condensed Consolidated Financial Statements (Unaudited) (continued)

#### 18. Commitments and Contingencies

#### **Russian Business Environment**

Russia continues economic reforms and development of its legal, tax and regulatory frameworks as required by a market economy. The future stability of the Russian economy is largely dependent upon these reforms and developments and the effectiveness of economic, financial and monetary measures undertaken by the Government. In addition laws and regulations, including interpretations, enforcement and judicial processes, continue to evolve in Russia. Other laws and regulations and certain other restrictions producing a significant effect on the Company's industry, included to the following: rights to use subsurface resources, environmental matters, site restoration, transportation and export, corporate governance, taxation, etc.

The Russian economy is vulnerable to market downturns and economic slowdowns elsewhere in the world. The global financial crisis has resulted in capital markets instability, significant deterioration of liquidity in the banking sector, and tighter credit conditions within Russia. While the Russian Government has introduced a range of stabilization measures aimed at providing liquidity and supporting debt refinancing for Russian banks and companies, there continues to be uncertainty regarding the access to capital and cost of capital for the Company and its counterparties, which could affect the Company's consolidated financial position, consolidated results of operations and business prospects.

While management believes it is taking appropriate measures to support the sustainability of the Company's business in the current circumstances, further market deterioration could negatively affect the Company's consolidated results and consolidated financial position in a manner not currently determinable.

#### **Taxation**

Legislation and regulations regarding taxation in Russia continue to evolve. Various legislation and regulations are not always clearly written and their interpretation is subject to the opinions of the local, regional and national tax authorities. Instances of inconsistent opinions are not unusual.

The current regime of penalties and interest related to reported and discovered violations of Russia's laws, decrees and related regulations is severe. Interest and penalties are levied when an understatement of a tax liability is discovered. As a result, the amounts of penalties and interest can be significant in relation to the amounts of unreported taxes.

In Russia tax returns remain open and subject to inspection for a period of up to three years. The fact that a year has been reviewed does not close that year, or any tax return applicable to that year, from further review during the three-year period.

Russian transfer pricing rules were introduced in 1999, giving Russian tax authorities the right to make transfer pricing adjustments and impose additional tax liabilities in respect of all controlled transactions, provided that the transaction price deviates from the market price by more than 20%. Controlled transactions include transactions between related entities and certain other types of transactions between independent parties, such as foreign trade transactions and transactions with significant (by more than 20%) price fluctuations.

# Notes to Interim Condensed Consolidated Financial Statements (Unaudited) (continued)

#### 18. Commitments and Contingencies (continued)

#### **Taxation (continued)**

The Russian transfer pricing rules are vaguely drafted, leaving wide scope for interpretation by Russian tax authorities and courts. Due to the uncertainties in interpretation of transfer pricing legislation, the tax authorities may challenge the Group's prices and propose an adjustment. If such price adjustments are upheld by the Russian courts and implemented, it could have an adverse effect on the Group's financial condition and results of operations. The Company's management believes that such transfer pricing related income tax positions taken by the Company are sustainable and will not have any significant negative impact on the Company's financial statements. The Company provides finance for operations of its subsidiaries by various means which may lead to certain tax risks. The Company's management believes that the related tax positions are sustainable and will not have any significant negative impact on the Company's consolidated financial position or results of operations.

During three months ended March 31, 2010, the tax authorities held tax examinations in the Company and its subsidiaries for 2006-2009 fiscal years. The Company does not expect results of the examinations to have a material impact on the Company's consolidated financial position or results of operations. Tax years or periods prior to 2006 are not subject to examination.

As of March 31, 2010, there is a possible risk that RUB 5,567 (US\$ 190 million at the CBR official exchange rate as of March 31, 2010) of VAT receivable (see Note 5) will not be recovered.

The Company's management believes that the outcome of these tax cases will not have any significant impact on the Company's consolidated financial position or results of operations. Overall, management believes that the Company has paid or accrued all taxes that are applicable. For taxes other than income tax, where uncertainty exists, the Company has accrued tax liabilities based on management's best estimate of the probable outflow of resources, which will be required to settle these liabilities. Possible liabilities which were identified by management at the balance sheet dates as those that can be subject to different interpretations of the tax laws and regulations are not accrued in the consolidated financial statements.

#### **Capital Commitments**

The Company and its subsidiaries are engaged in ongoing capital projects for exploration and development of production facilities and modernization of refineries and the distribution network. The budgets for these projects are generally set on an annual basis. Depending on the current market situation, actual expenditures may vary from the budgeted amounts.

#### **Environmental Matters**

Due to the nature of its business, Rosneft and its subsidiaries are subject to federal legislation regulating environmental protection. The majority of environmental liabilities arise as a result of accidental leaks that pollute land, air pollution and placement of oil waste. The Company considers fines paid and other environmental liabilities as immaterial, given the scale of its operations.

# Notes to Interim Condensed Consolidated Financial Statements (Unaudited) (continued)

#### 18. Commitments and Contingencies (continued)

### **Environmental Matters (continued)**

In the course of its operations, the Company seeks to comply with international environmental standards and monitors compliance therewith on a regular basis. With a view to improve environmental activities, the Company takes specific measures to mitigate the adverse impact of its current operations on the environment.

Legislation that regulates environmental protection in the Russian Federation is evolving, and the Company evaluates its liabilities in accordance therewith. Currently it is not possible to reasonably estimate the liabilities of the Company which may be incurred should the legislation be amended.

Management believes that, based on the existing legislation, the Company is unlikely to have liabilities that need to be accrued in addition to the amounts already recognized in the consolidated financial statements and that may have a material adverse effect on the consolidated operating results or financial position of the Company.

#### Social and Sponsorship

The Company is required to maintain certain social infrastructure assets (not owned by the Company and not recorded in the consolidated financial statements) for use by its employees, as well as to incur other social and sponsorship costs. Partly in exchange the Company receives regional tax incentives enabling it to further develop its business.

The Company incurred US\$ 17 million and US\$ 26 million in social and sponsorship expenses for the first three months of 2010 and 2009, respectively. These expenses are presented within other expenses in the consolidated statements of income and comprehensive income.

#### **Pension Plans**

The Company and its subsidiaries make payments to the State Pension Fund of the Russian Federation. These payments are calculated by the employer as percentage from the salary expense and are expensed as accrued.

The Company contributes to corporate pension fund to finance non-state pensions of its employees. The corporate pension fund is similar to a defined contribution plan. For each of the first three months of 2010 and 2009, the Company made contributions to the corporate pension fund amounting to US\$ 24 million.

#### **Guarantees and Indemnity**

As of March 31, 2010, the Company has provided guarantees for certain debt agreements primarily of its subsidiaries. In accordance with the debt agreements, the Company is obliged to perform on the guarantee and to pay the bank all amounts of outstanding guaranteed liabilities, including interest.

The Company cannot substitute guarantees issued by any novation agreement or mutual offset. The Company's obligations under guarantees issued are valid in case of any change in the loan agreements. After the full payment and settlement of all obligations under the guarantees, the Company has the right to subrogate its respective part of all bank claims against the debtor in accordance with the loan agreements. In the event the Company makes payments under guarantees issued, it has a right to claim the amounts paid from the debtor.

# Notes to Interim Condensed Consolidated Financial Statements (Unaudited) (continued)

#### 18. Commitments and Contingencies (continued)

#### **Guarantees and Indemnity (continued)**

In January 2007, RN-Yuganskneftegaz LLC signed a guarantee agreement in respect of all the obligations of RN-Energo LLC, the Company's wholly owned subsidiary, under the contract for electricity supply with OJSC Tyumenskaya Energosbytovaya Companiya for the period through December 31, 2010, in the amount of RUB 1.5 billion (US\$ 51 million at the CBR official exchange rate as of March 31, 2010). In the first quarter of 2010, this guarantee agreement was extended to December 31, 2013.

In November 2009, Rosneft signed a guarantee agreement in respect of all the obligations of RN-Tuapse Refinery LLC, the Rosneft's wholly owned subsidiary, under the contract for delivery of power generating units with Siemens Industrial Turbomachinery AB for the period through September 30, 2012, in the amount of 960 million Swedish krona (US\$ 133 million at the CBR based cross-rate as of March 31, 2010). In November 2009, Rosneft entered into a loan agreement with a western bank to finance the above delivery contract.

#### Litigations, Claims and Assessments

In 2006, Yukos Capital S.a.r.l., a former subsidiary of Yukos Oil Company, initiated arbitral proceedings against the Company and OJSC Samaraneftegas, the Company's subsidiary, in various courts alleging default under six ruble-denominated loans. The International Commercial Arbitration Court (the "ICAC") at the Russian Federation Chamber of Commerce and Industry issued four arbitration awards in favor of Yukos Capital S.a.r.l. in the amount of RUB 12.9 billion (US\$ 439 million at the CBR official exchange rate as of March 31, 2010). Arbitration panel formed pursuant to the International Chamber of Commerce ("ICC") rules issued an award against OJSC Samaraneftegas in the amount of RUB 3.6 billion (US\$ 122 million at the CBR official exchange rate as of March 31, 2010).

In 2007, the Company successfully challenged the ICAC awards and the ICAC awards were set aside by the Russian courts, including the Supreme Arbitration Court of the Russian Federation. Yukos Capital S.a.r.l., nevertheless, sought to enforce the ICAC awards in the Netherlands. The district court in Amsterdam refused to enforce the ICAC awards on the ground that they were properly set aside by a competent court. Yukos Capital S.a.r.l. appealed and on April 28, 2009 the Amsterdam Court of Appeals reversed the district court judgment and allowed Yukos Capital S.a.r.l. to enforce the ICAC awards in the Netherlands. The Company petitioned the decision of the Amsterdam Court of Appeals to the Supreme Court of the Netherlands requesting to annul the decision. Yukos Capital S.a.r.l. is actively seeking to enforce the ICAC awards in the Netherlands.

In 2007, lawsuits with Russian arbitration courts in Moscow and Samara were filed to nullify the loan agreements with Yukos Capital S.a.r.l. Court hearings have been suspended.

In 2009 Yukos Capital S.a.r.l. filed additional lawsuits as follows: (1) in the U.S. District Court for the Southern District of New York, seeking to enforce the ICAC awards and the Amsterdam Court of Appeals judgment in the United States of America; (2) in the High Court of Justice in London, seeking enforcement of the ICAC awards in England and Wales, as well as interest on those awards; (3) in the High Court of Justice in Dublin, seeking enforcement of the ICAC awards in Ireland, as well as interest on those awards; and (4) in the Royal Court of the Island of Jersey, seeking enforcement of the ICAC awards in Jersey, as well as interest on those awards. The proceedings in England, Ireland, and Jersey were all commenced with applications for orders freezing certain of Rosneft's assets which were granted on an ex parte basis. The New York court allowed prejudgment attachment if Rosneft had assets in New York, but nothing was in fact attached.

# Notes to Interim Condensed Consolidated Financial Statements (Unaudited) (continued)

#### 18. Commitments and Contingencies (continued)

#### Litigations, Claims and Assessments (continued)

On April 6, 2010, a consent judgment was entered in the English court pursuant to which: (1) Rosneft agreed to provide mutually agreed security for the English and Dutch proceedings; (2) all freezing, attachment, and execution orders were discharged in England, Ireland, Jersey, the Netherlands, and New York; (3) the lawsuits in New York, Ireland, and Jersey were dismissed; (4) Yukos Capital S.a.r.l. committed not to commence any new litigation concerning the ICAC awards; and (5) Yukos Capital S.a.r.l. committed to drop its efforts to execute on the Amsterdam Court of Appeals judgment. The Company intends to defend its position vigorously in the remaining proceedings in the Netherlands and England.

The Company continues to reflect the liability under these loan agreements in its consolidated financial statements (see Note 12) and believes that payments in excess of the recorded amounts are possible but can not be reasonably estimated.

The Company and its subsidiary participate in arbitral proceedings against OJSC Sakhaneftegaz and OJSC Lenaneftegaz for the recovery of certain loans and guarantees of indemnity in the amount of RUB 1,286 million (US\$ 44 million at the CBR official exchange rate as of March 31, 2010). The respective accounts receivable in the amount of US\$ 23 million (net of allowance in the amount of US\$ 21 million) are recorded as long-term receivables in the consolidated balance sheet (see Note 10).

The Company was a plaintiff in arbitral proceedings against OJSC National Bank TRUST (further "TRUST") for the repayment under a deposit agreement. In December 2009, parties concluded the amicable agreement according to which TRUST agreed to repay further to previously repaid amounts, the additional amount of RUB 946 million (US\$ 32 million at the CBR official exchange rate as of March 31, 2010) by April 1, 2010. As of March 31, 2010, TRUST's outstanding debt in the amount of RUB 696 million (US\$ 24 million at the CBR official exchange rate as of March 31, 2010) is recorded in the Company's consolidated balance sheet as acquired receivables. In April 2010, TRUST fully repaid its debt.

During 2008 and 2009, the Federal Antimonopoly Service ("FAS Russia") and its regional bodies ruled that Rosneft and certain companies of the Group violated certain antimonopoly regulations in relation to petroleum products trading. The total amount of administrative penalties assessed as of the financial statements issue date is RUB 7,543 million (US\$ 257 million at the CBR official exchange rate as of March 31, 2010). The Company is appealing all rulings. The Company's management believes that payment of some portion of the above penalties is possible.

The Company and its subsidiaries are involved in other litigations which arise from time to time in the course of their business activities. The Company's management believes that the ultimate result of these litigations will not significantly affect the operating results or financial position of the Company.

#### **Licence Agreements**

In accordance with certain license agreements or separate agreements concluded from time to time with the local and regional authorities, the Company is required to maintain certain levels of expenditures for health, safety and environmental protection, as well as maintain certain level of capital expenditures. Generally these expenditures are within the normal operating and capital budgets and are accounted for when incurred in accordance with existing accounting policies for respective costs and expenses.

# Notes to Interim Condensed Consolidated Financial Statements (Unaudited) (continued)

#### 18. Commitments and Contingencies (continued)

#### **Oil Supplies**

In January 2005, the Company entered into a long-term contract for the term from February 2005 through December 2010 with China National United Oil Corporation for the sale of crude oil via rail to China in the total amount of 48.4 million tons. The contract is based on usual commercial terms with an agreed formula linked to market prices.

In February 2009, Rosneft entered into a long-term contract for the term from January 2011 through December 2030 with China National Petroleum Corporation for the sale of crude oil via pipeline to China in the total amount of 180 million tons. The contract is based on usual commercial terms with an agreed formula linked to market prices.

In April 2009, Rosneft entered into a long-term contract for the term from January 2011 through December 2030 with OJSC AK Transneft for the sale of crude oil via pipeline to China in the total amount of 120 million tons. The contract is based on usual commercial terms with an agreed formula linked to market prices.

#### 19. Segment Information

Presented below is information about the Company's operating segments in accordance with FASB ASC 280, *Segment Reporting*. The Company determines its operating segments based on the nature of their operations. The performance of these operating segments is assessed by management on a regular basis. The exploration and production segment is engaged in field exploration and development and production of crude oil and natural gas. The refining, marketing and distribution segment is engaged in processing crude oil and other hydrocarbons into petroleum products, as well as the purchase, sale and transportation of crude oil and petroleum products. Corporate assets are allocated between exploration and production and refining, marketing and distribution in proportion to sales of these segments. Drilling services, construction services, banking and finance services, and other activities are combined in the "All other" category. Substantially all of the Company's operations are conducted in the Russian Federation. Further, the geographical regions within the Russian Federation have substantially similar economic and regulatory conditions. Therefore, the Company has not presented any separate geographical disclosure.

The significant accounting policies applied to each operating segment are consistent with those applied to the consolidated financial statements. Sales transactions for goods and services between the operating segments are carried out using prices agreed upon between Rosneft and its subsidiaries.

# Notes to Interim Condensed Consolidated Financial Statements (Unaudited) (continued)

#### 19. Segment Information (continued)

Below is a breakdown of revenues by domestic and export sales, with a classification of export sales based on the country of incorporation of the foreign customer.

	Three months ended March 31, 2010 (unaudited)	Three months ended March 31, 2009 (unaudited)
Oil and gas sales		•
Export sales of crude oil – Europe and other directions	5,378	2,989
Export sales of crude oil – Asia	2,303	846
Export sales of crude oil – CIS	210	259
Domestic sales of crude oil	43	14
Domestic sales of gas	113	80
Total oil and gas sales	8,047	4,188
Petroleum products and petrochemicals sales		
Export sales of petroleum products – Europe	2,188	1,261
Export sales of petroleum products – Asia	1,502	862
Export sales of petroleum products – CIS	48	50
Domestic sales of petroleum products	2,470	1,619
Sales of petrochemicals	102	28
Total petroleum products and petrochemicals sales	6,310	3,820

#### 20. Fair Value of Financial Instruments and Risk Management

Effective January 1, 2008, the Company adopted FASB ASC 820, which defines fair value as the exchange price that would be received for an asset or paid to transfer a liability in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. FASB ASC 820 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs when measuring fair value.

FASB ASC 820 defines three levels of inputs that may be used to measure fair value:

- Level 1— Quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to assess at the measurement date. An active market for the asset or liability is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.
- Level 2— Observable inputs other than Level 1 prices such as quoted prices for similar assets and liabilities; quoted prices in markets that are not active; or model-derived valuations or other inputs that are observable or can be corroborated by observable market data.
- Level 3— Unobservable inputs for the asset or liability. These inputs reflect the Company's own assumptions about the assumptions a market participant would use in pricing the asset or liability.

# Notes to Interim Condensed Consolidated Financial Statements (Unaudited) (continued)

#### 20. Fair Value of Financial Instruments and Risk Management (continued)

Assets and liabilities of the Company that are measured at fair value on a recurring basis are presented in the table below in accordance with the fair value hierarchy.

	Fair value measurement as of March 31, 2010			
	Level 1	Level 2	Level 3	Total
Assets:				
Current assets				
Trading securities	32	1	_	33
Available-for-sale securities	380	45	_	425
Derivatives	_	40	_	40
Non-current assets				
Available-for-sale securities	26	15	_	41
Total assets measured at fair value	438	101	_	539
Current liabilities:				
Derivatives		(165)	_	(165)
Total liabilities measured at fair value		(165)	_	(165)

The market for a number of financial assets is not active. In accordance with requirements of FASB ASC 820-10-35-15A, *Financial Assets in a Market That Is Not Active*, observable inputs of Level 2 were used to determine fair value of such financial assets.

The Company, in connection with its current activities, is exposed to various financial risks, such as foreign currency risks, commodity price risk, interest rate risks and credit risks. The Company manages these risks and monitors its exposure on a regular basis.

The fair value of cash and cash equivalents, held-to-maturity securities, accounts receivable, accounts payable, and other current assets approximates their carrying value recognized in these financial statements. The fair value of long-term debt differs from the amounts recognized in the consolidated financial statements. The estimated fair value of long-term debt discounted using the estimated market interest rate for similar financial liabilities amounted to US\$ 16,800 million and US\$ 17,916 million as of March 31, 2010 and December 31, 2009, respectively. These amounts include all future cash outflows related to the repayment of long-term loans, including their current portion and interest expenses.

A substantial portion of the Company's sales revenues is received in US\$. In addition, substantial financing and investing activities, obligations and commitments are also undertaken in US\$. However, significant operating and investing expenditures, other obligations and commitments as well as tax liabilities are denominated in rubles. As a result the Company is exposed to the corresponding currency risk.

The Company enters into contracts to economically hedge certain of its risks associated with ruble appreciation and increased interest expense accrued on loans received by the Company. Hedge accounting pursuant to FASB ASC 815 is not applied to these instruments.

# Notes to Interim Condensed Consolidated Financial Statements (Unaudited) (continued)

#### 20. Fair Value of Financial Instruments and Risk Management (continued)

In December 2007, the Company entered into a 5-year interest rate swap contract with a notional amount of US\$ 3 billion. Under the terms of the contract, a floating LIBOR rate may be converted into a certain fixed rate. The other party has a call option to terminate the deal. The fair value of the interest swap contract was recorded in the consolidated balance sheets as of March 31, 2010 and December 31, 2009 as other current liabilities in the amount of US\$ 157.6 million and US\$ 151.5 million, respectively. The change in fair value was recorded in the consolidated statement of income and comprehensive income for the three months ended March 31, 2010 as a component of interest expense in the amount of US\$ 6.1 million.

In December 2008, the Company entered into a 5-year interest rate swap contract with a notional amount of US\$ 500 million. Under the terms of the contract, a floating LIBOR rate may be converted into a certain fixed rate. The other party will have a call option to terminate the deal commencing two years after the contract date. The fair value of the interest swap contract was recorded in the consolidated balance sheets as of March 31, 2010 as other current liabilities in the amount of US\$ 7.8 million, and as of December 31, 2009 as other current asset in the amount of US\$ 2.7 million (see Note 7). The change in fair value was recorded in the consolidated statement of income and comprehensive income for the three months ended March 31, 2010 as a component of interest expense in the amount of US\$ 10.5 million.

In October 2009, the Company entered into a fixed interest rate structured deposit agreement with a nominal amount of US\$ 500 million (see Note 4) which expires in October 2010. If on the deposit repayment date the spot RUB/US\$ exchange rate is higher than agreed conversion rate, the other party has a call option to repay amount in RUB which shall be equal to the nominal deposit amount multiplied by the respective conversion rate. Embedded call option was bifurcated from the host contract and recorded at fair value in the consolidated balance sheets as of March 31, 2010 and December 31, 2009 as other current asset in the amount of US\$ 9.2 million and US\$ 0 million (see Note 7), respectively. The change in fair value was recorded in the consolidated statement of income and comprehensive income for the three months ended March 31, 2010 as a component of foreign exchange gain in the amount of US\$ 9.2 million.

In February 2010, the Company entered into forward foreign currency contracts to hedge its foreign currency risk of forecasted operating expense. These financial exposures are managed as an integral part of the Company's risk management program, which seeks to reduce the potentially adverse effect that the volatility of the exchange rate markets may have on operating results. As of March 31, 2010, the maximum term over which the Company has economically hedged exposures to the variability of the currency exchange rates under its derivative instruments is 9 months. The fair value of forward contracts in the amount of US\$ 30.8 million (see Note 7) was recorded as other current assets in the consolidated balance sheet as of March 31, 2010, and the change in fair value was recorded in the consolidated statement of income and comprehensive income for the three months ended March 31, 2010 as a component of foreign exchange gain in the amount of US\$ 30.8 million.

Fair values of foreign currency forward contracts, the interest rate swap contracts and embedded call option are based on estimated amounts that the Company would pay or receive upon termination of the contracts as of March 31, 2010.

# Notes to Interim Condensed Consolidated Financial Statements (Unaudited) (continued)

#### 21. Subsequent Events

In April 2010, the Company made the first drawdown in the total amount of EUR 126.5 million (US\$ 171 million at the CBR based cross-rate as of March 31, 2010) under loan agreement signed with a foreign bank in March 2010. The loan is repayable in semi-annual installments and scheduled to be repaid no later than September 2020.

In April 2010, Rosneft's Board of Directors recommended shareholders to approve dividends on the Company's common shares for 2009 in the amount of RUB 24.4 billion or RUB 2.3 per share (US\$ 833 million or US\$ 0.08 per share at the CBR official exchange rate as of the Board meeting date).

Subsequent to March 31, 2010 the Company made a drawdown under a long-term agreement in the amount of US\$ 998 million and repaid US\$ 463 million under various other loan agreements.
